problems of cryobiology, volume 22 (year 2012)

contents of issue 1/2012

theoretical and experimental cryobiology

<i>Shylo A.V., Ventskovskaya E.A., Semenchenko A.Yu., Babiychuk G.A.</i> Effect of Cold Exposures on Thyroid Activity and Low-Molecular Weight Peptides Spectrum in Rats.....	3
<i>Zaykov V.S., Petrenko Yu.A., Trufanova N.A., Pravdyuk A.I., Petrenko A.Yu.</i> Vitrification of Mesenchymal Stromal Cells in Alginate Microbeads.....	14
<i>Vysekantsev I.P., Babinets O.M., Martsenyuk V.F., Gurina T.M.</i> Comparative Study of Influence of Cryopreservation Regimens on Free and Immobilized Cells of <i>Saccharomyces boulardii</i> Probiotic.....	21
<i>Dudetska G.V., Bozhok G.A., Zubov P.M., Gurina T.M., Bondarenko T.P.</i> Effect of Different Cooling Rates on Viability and Cell Populations in Adrenal Cell Suspensions During Cryopreservation.....	30
<i>Porozhan Ye.A., Ostankov M.V., Babenko N.N., Goltsev A.N.</i> Assessment of Phenotype Characteristics of Fetal Neural Cells After Cryopreservation Using Different Freezing Regimens.....	39
<i>Samokhina L.M., Starodub N.F., Babiychuk G.A., Lomako V.V.</i> Rhythmic Cold Effect on Activity of Elastases in Female Rats with Alcohol- Dependent Hypertension.....	49
<i>Kiroshka V.V., Medinets E.A., Tischenko Yu.O., Bondarenko T.P.</i> Dynamics of Morphological Change in Neonatal Ovarian Tissue During Hypothermic Storage Depending on Composition of Incubation Medium.....	61
<i>Gulevsky A.K., Akhatova Yu.S., Moiseeva N.N., Gorina O.L., Chizhevsky V.V., Stepanyuk L.V.</i> Assessment of Phagocytic Activity of Leukoconcentrate Neutrophils Cryopreserved with Dimethyl Acetamide after Post-Thaw Rehabilitation in Medium Containing Cord Blood Low-Molecular Fraction (Below 5 kDa).....	71
<i>Tamarina I.V., Bozhok G.A., Gurina T.M., Gubina N.F., Bondarenko T.P.</i> Cryopreservation of Newborn Mice Adrenal Cell Suspension: 1. Concentration Effect of DMSO as Cryoprotective Medium Component.....	79

cryomedicine, clinical and experimental transplantology

<i>Gritsay D.V., Lebedinskiy A.S., Ochenashko O.V., Petrenko Yu.A.</i> Cryopreserved Fetal Liver Cells Immobilized in Macroporous Carriers Promote Liver Function Recovery After Injury With 2-Acetylaminofluorene.....	88
<i>Bogatyрева O.O., Galchenko S.Ye., Sandomirsky B.P.</i> Effect of Extracts of Pig Spleen and Piglet Skin Cryopreserved Fragments on Blood Leukocyte Profile of Rats with Cold Injury of Skin.....	97

Instructions to the Authors	104
-----------------------------------	-----

contents of issue 2/2012

theoretical and experimental cryobiology

<i>Babiychuk V.G., Marchenko V.S., Babiychuk G.A.</i> Cold Stress as Corrector of Functional Architecture of Blood Brain Barrier in Aged Rats. Part 1. Fractal Analysis.....	107
<i>Volkova N.O.</i> Study of Morphological Characteristics of Cryopreserved Cell Cultures of Stromal Origin.....	118
<i>Cherkashina Ya.O.</i> Effect of Cryoprotectants on Hypertonic Cryohemolysis Rate of Human Erythrocytes with Modified Cytoskeleton-Membrane Complex.....	126

cryomedicine, clinical and experimental transplantology

<i>Falko O.V.</i> Application of Human Placental Blood Serum as Perspective Method to Correct Atherosclerotic Changes (Experimental Study).....	133
---	-----

short communications

Minisymposium Stem Cell Day, Kharkov, Ukraine 22 nd of May 2012.....	143
<i>Petrenko Yu.A.</i> Properties of Mesenchymal Stromal Cells During 3D Culturing Within Scaffolds of Different Origin.....	144
<i>Zubov D.O.</i> Functional Characteristics of Cultured Chondrocytes from Intervertebral Discs and Multipotent Stromal Cells from Human Adipose Tissue.....	148
<i>Maslova O.O., Shuvalova N.S., Sukhorada O.M., Deryabina O.G., Makarenko M.V.</i> Changes in Morphofunctional Characteristics of Umbilical Cord Matrix Mesenchymal Cells During Passaging.....	153
<i>Shabliy V., Kuchma M., Kirik V., Onischenko G., Tsupikov O., Klimenko P., Kuchuk O., Gabrielyan A., Domanskiy T., Onischenko V., Lukash L., Lobyntseva G.</i> Mesenchymal Stromal Cells from Native and Cryopreserved Human Placenta: Phenotype, Multipotency and <i>In Vivo</i> Migration Potential.....	157
<i>Kuchuk O.V., Kirik V.M.</i> Stepwise Differentiation of Multipotent Cells from Murine Adipose Tissue in Osteogenic Direction....	161
<i>Vasilyev R.G.</i> Multipotent Stem Cells of Bulbar Region of Hair Follicle with Properties of Neural Crest Derivatives.....	165
<i>Petrova M.V., Popandopulo A.G., Yuditskiy D.L., Mokrik I.Yu.</i> Derivation of Adhesive Cell-Free Matrix for Cardiovascular Prosthesis.....	169
<i>Byzov D.V., Chizh N.A., Mikhaylova I.P., Synchikova O.P., Sandomirsky B.P.</i> Devitalization of Xenoarteries: New Approach to Decrease Immunogenicity.....	173
<i>Pravdyuk A.I., Zaykov V.S., Rogulskaya E.Yu., Revenko E.B., Ivanov R.V., Petrenko Yu.A.</i> Growth and Adipogenic Differentiation of Human Bone Marrow and Dermis Derived Mesenchymal Stromal Cells during 2D and 3D Culturing within Alginate Microbeads and Macroporous Scaffolds.....	177
<i>Kalinkevich O.V., Kalinkevich A.N., Sklyar A.M., Pogorelov M.V., Poddubnyi I.N., Starikov V.V., Danilchenko S.N.</i> 3D Scaffolds Based on Chitosan for Cell Cultures and Tissue Engineering.....	182
Abstracts of the 36 th Annual Conference of Young Scientists ‘Cold in Biology and Medicine 2012. Current Problems in Cryobiology, Transplantation and Biotechnology’ May, 22–24 th , 2012, Kharkov, Ukraine.....	186
Chronicle.....	217
Instructions to the Authors	219

contents of issue 3/2012

Proceeding of the Scientific Conference ‘Current Problems of Cryobiology and Cryomedicine’, Kharkov, Ukraine, October 18 th –19 th	233
Instructions to the Authors.....	386

contents of issue 4/2012

theoretical and experimental cryobiology

<i>Gordiyenko O.I., Kovalenko S.Ye., Kovalenko I.F.</i> Mechanisms of Glycerol Permeability through the Membrane of Human Erythrocytes.....	389
<i>Lomako V.V., Kovalenko I.F., Shilo A.V.</i> Peripheral Blood Erythrocytes at Various Types of Hypothermia of Homoiothermal Organism.....	398
<i>Gurina T.M., Kirilyuk A.L.</i> Temperature Ranges of Phase Transformations in the Cryoprotective Media Components Determined by Thermoplastic Deformation Method.....	410
<i>Shevchenko M.V., Sukach A.N.</i> Effect of Hypothermic Storage of Isolated Neural Cells of Newborn Rats in Media of Different Composition on Its Behavior in Culture.....	423
<i>Todrin A.F., Timofeyeva E.V.</i> Thermophysical Properties of Cryoprotectants. VI. Diffusion and Thermal Expansion of Several Cryoprotectants, Their Aqueous Solutions and Mixtures.....	433

crypreservation of biological resources

<i>Babychuk L.A., Migunova R.K., Nevzorova O.F., Nevzorov V.P.</i> Ultrastructure of Nucleated Cells of Cord Blood and Blood of Adult Donors at Different Stages of Cryopreservation. Report 1. The Changes on the Stage of Cells Isolation.....	453
<i>Voyda Yu.V., Biryukova S.V., Vysekantsev I.P.</i> Effect of Cryopreservation and Storage under Mineral Oil on Pheno- and Genotype Features of <i>Escherichia coli</i> Clinical Strains Isolated from Different Biotopes.....	462

cryomedicine, clinical and experimental transplantology

<i>Lyubich L.D., Lisyanyy M.I.</i> Effect of Sandimmun on Immune Response Development in Mice after Intraperitoneal and Intracerebral Introduction of Allogeneic Fetal Neural Cells.....	468
<i>Samadov V.H., Kuzmenko A.P., Zaharychev V.D.</i> Evaluation of Antitumor Effect of Combined Application of Cryoablation and Microwave Hyperthermia in the Experiment.....	484

Key Word Index. Volume 22.....	494
