

LIST OF PAPERS PUBLISHED IN “PHYSICO-CHEMICAL MECHANICS OF MATERIALS” IN 2011

<i>Nazarchuk Z. T. and Syniavskiy A. T.</i> Approximation of the solution of the reverse problem of electromagnetic waves scattering on plane dielectrics	1	7
<i>Klepko V. V., Kolupaev B. B., Lysenkov E. A., and Voloshin M. O.</i> Viscoelastic properties of the filled polyethylene glycol in the megahertz frequency range.....	1	18
<i>Balitskii O. I., Chmiel J., and Dorobczyński L.</i> Analysis of electrochemical oscillations in vibration cavitation conditions.....	1	24
<i>Matsko I. Y., Kravets I. B., and Javorskyj I. M.</i> The investigation of vibration signal structure of mechanical systems during defect growth	1	29
<i>Pasternak Ya. M. and Sulym H. T.</i> Solution of antiplane shear problems for solids containing thin ribbon-like inclusions by integral equation methods. I. General correlation	1	37
<i>Chernets M. V., Kelbinski Yu., and Yarema R. Ya.</i> A generalized method for evaluation of cylindrical involute gear wear	1	44
<i>Kutsei M.</i> Nonstationary frictional heat formation under a composite strip sliding over a semi-space surface	1	50
<i>Stamenović M., Putić S., Drmanić S., Rakin M., and Medjo B.</i> The influence of service solutions on longitudinal and circumferential tensile properties of glass-polyester composite pipes	1	57
<i>Bohdanovych O. V. and Veselukha V. M.</i> Fatigue crack growth resistance of long-term operated steel of the main oil pipeline	1	65
<i>Ivaskevych L. M.</i> The influence of temperature and cyclic loading on hydrogen embrittlement of nickel heat-resistant alloys.....	1	70
<i>Lesiuk G. and Szata M.</i> Aspects of structural degradation in old bridge steels by means of fatigue crack propagation	1	76
<i>Rozumek D. and Hepner M.</i> Influence of oxygenation time on crack growth in titanium alloy under cyclic bending.....	1	82
<i>Novytskyi V. H., Havryliuk V. P., Shatrava O. P., Panasenko D. D., Khoruzhyi V. Ya., and Kalchuk M. O.</i> Structure and tribological characteristics of heterogeneous alloy before and after laser treatment.....	1	87
<i>Dolinska I. Ya.</i> Determination of the residual life of steam turbine wheels under time-alternating loading.....	1	94
<i>Hnyp I. P., Zin Ya. I., and Bilyi L. M.</i> On the influence of inhibitors on the resistance of polymer anticorrosion coatings to cathode lamination	1	98
<i>Yan Aijun, Hou Juanling, Chen Yi, and Feng Lajund.</i> Study on soil corrosion principles of the Q235 steel ground net in Weinan Shaanxi	1	104
H. V. Karpenko Physico-Mechanical Institute of the National Academy of Sciences of Ukraine (To the 60-th anniversary of foundation).....	2	5
<i>Kryzhanivskiy Ye. I. and Nykyforchyn H. M.</i> Peculiarities of corrosion-hydrogen degradation of oil and gas pipelines and oil tanks	2	11
<i>Pokhmurskii V. I., Kornii S. A., and Kopylets V. I.</i> The use of quantum-chemical approach to the study of corrosion on metal and alloy surfaces.....	2	21
<i>Ivanytskyi Ya. L.</i> Evaluation of strength of structural materials with cracks under complex-mode loading	2	33
<i>Kuryliak D. B. and Nazarchuk Z. T.</i> Development of the methods of analytical regularization in the diffraction theory	2	42
<i>Kit H. S., Kushnir R. M., Mykhaskiv V. V., and Nykolyshyn M. M.</i> Methods for determination of static and dynamic stresses in bodies with sub-surface cracks	2	56
<i>Datsyshyn O. P.</i> Modelling of initiation of contact-fatigue damages and evaluation of tribo-couple elements life	2	67
<i>Fedorov V. V.</i> Hydrogen permeability of reactor steels	2	79
<i>Sylovanyuk V. P. and Halazyuk O. V.</i> Calculation model of a body with a crack “healed” by injection	2	88
<i>Hurka A. and Kocanda D.</i> Mass-transfer in high-gradient field during friction welding and modification of the upper layer	2	93

<i>Yasniy P. V., Maruschak P. O., Pylypenko A. P., Bishchak R. T., Zakiyev I. M., and Hlado V. B.</i> Diagnostics of serviceability of heat-resistance steel of metallurgical equipment after thermocycling	2	99
<i>Koshovyy V. V., Romanyshyn I. M., Mokryy O. M., and Romanyshyn R. I.</i> Development of ultrasonic tomography technologies for technical diagnostics of structural materials	2	109
<i>Dzhala R. M. and Verbenets B. Ya.</i> Electromagnetic method and means of non-destructive observation of underground pipelines corrosion protection	2	117
<i>Rusyn B. P., Varetskyy Ya. Yu., Lysak Yu. V., and Pokhmurskii A. Yu.</i> Reconstruction and quantitative analysis of metal surfaces with pits based on improved image matching method	2	126
<i>Javorskyj I. M., Drabych P. P., Kravets I. B., and Matsko I. Yo.</i> Methods of vibration diagnostics of the initial stages of rotation systems damage	2	134
<i>Andreikiv O. Ye., Dolinska I. Ya., and Yavorska N. V.</i> Estimation of the periods of creep-fatigue crack initiation and growth in thin-walled structural elements	3	7
<i>Stadnyk M. M.</i> An elastic ellipsoid heat-conductive inclusion in a body under effect of heat flow at infinity	3	16
<i>Chernets M. V. and Zhydyk V. B.</i> Quasi-static contact problem for cylindrical joints with a small facing of bodies contours.....	3	24
<i>Revenko V. P.</i> Torsion of a finite cylinder by locally distributed friction forces.....	3	30
<i>Nekliudov I. M., Voyevodin V. M., Didenko S. Yu., Ilchenko M. I., Didenko Yu. S., and Ilchenko Yu. M.</i> Nanostructured microlaminates copper-steel: preparation and mechanical properties.....	3	36
<i>Yaskiv O. I., Pohrelyuk I. M., Samborskyi O. V., and Fedirko V. M.</i> Tribological properties of carbonitride coatings formed on titanium by thermodiffusion method	3	40
<i>Berthod P., Aranda L., and Hamini Y.</i> Thermal expansion of chromium-rich iron-based or iron/nickel-based alloys reinforced by tantalum carbides.....	3	46
<i>Duriagina Z. A., Kuzin O. A., Kuzin M. O., and Shcherbovskikh N. V.</i> The influence of the laser alloying conditions on the parameters of wear resistance of 12X17T steel	3	53
<i>Kurek M. and Lagoda T.</i> Comparison of fatigue characteristics for some selected structural materials under bending and torsion	3	59
<i>Malyshev V. V.</i> The electrodeposition of different types of cathodic deposits of tungsten from ion melts	3	68
<i>Bakar M., Okulska-Božek M., and Zygmunt M.</i> Effect of poly(amic acid) and polyimide on the adhesive strength and fracture toughness of epoxy resin	3	77
<i>Snizhnoi G. V.</i> Formation of deformation martensite in the chromium-nickel austenitic steels ..	3	84
<i>Bondar E. S., Prihodko S. V., Kurmakova I. N., Gumenyuk O. L.</i> The inhibiting action of nitrogencontaining heterocycles under the mild steel corrosion	3	90
<i>Nazarchuk Z. T., Skalskyi V. R., Serhiyenko O. M., Matviiv Yu. Ya., Hrechykhin L. I., and Podloznyi E. D.</i> Evaluation of the displacement vector module for simultaneous formation of cracks in composite material	3	94
<i>Teterko A. Ya. and Hutnyk V. I.</i> Construction of inverse transformation function of eddy current devices for a multivariable testing	3	103
<i>Vorobel R. A., Zhuravel I. M., Svirskaya L. M., and Student O. Z.</i> Automatic selection and quantitative analysis of carbides on the 12X1MΦ steel grains interface after operation at the HPP pipeline	3	109
<i>Hertsyk O. M., Kovbuz M. O., Yezerska O. A., and Pereverzieva T. G.</i> Modification of the soft magnetic amorphous alloys surface for creation of durable corrosion-protection coatings.....	3	116
<i>Ostash O. P. and Vityvitskyi V. I.</i> Double action of hydrogen on the mechanical behaviour of steels and structural optimization of their hydrogen-resistance.	4	5
<i>Balitskii O. I., Elias J., and Ripei I. V.</i> The influence of preliminary plastic deformation of 12X18H12T steel on its mechanical characteristics	4	20
<i>Nykyforchyn H. M., Tkachuk Yu. M., and Student O. Z.</i> Operation degradation of 20X13 steel blades of HPP steam turbines	4	28
<i>Ivanytskyi Ya. L., Shtayura S. T., Molkov Yu. V., and Lenkovskii T. M.</i> Hydrogen influence on fracture resistance of sheet steel 65Г	4	36
<i>Rozumek D. and Marciniak Z.</i> Fatigue properties of notched specimens made of FeP04 steel	4	41
<i>Jafarian H. R., Mirzamohammadi S., Sabour Rouhaghdam A., and Aliofkhaezrai M.</i> Investigation on microstructure and oxidation behavior of Cr-modified aluminide coating on γ-TiAl alloys	4	47

<i>Savruk M. P. and Kazberuk A.</i> Distribution of stresses around V-shaped notches under complex-stressed state	4	52
<i>Andreykiv O. Ye., Kit M. B., and Khyh S. V.</i> The determination of residual life time of a plate with cracks under block loading.....	4	62
<i>Stashchuk M. H.</i> Mutual influence of the stress-strain state and hydrogen concentration in the system “metal–hydrogen”	4	71
<i>Datsyshyn O. P. and Rudavska I. A.</i> An edge nonradial crack in a circular disk.....	4	78
<i>Ostrik V. I. and Shchekotova O. M.</i> Slipping contact of a punch with an elastic wedge	4	82
<i>Kulchytsky-Zhyhailo R. D.</i> Two-layered periodic coated elastic half-space under Hertz’s pressure	4	92
<i>Kondrat V. F. and Hrytsyna O. R.</i> The equations of local gradient electro-magneto-thermo-mechanics of dielectrics with account of the polarization inertia.....	4	99
<i>Kurek M., Lagoda T., and Warmuzek P.</i> Determination of stress and strain concentrations in the elastic-plastic materials under bending and torsion.....	4	108
<i>Chernets M. V. and Yarema R. Ya.</i> A generalized method of the assessment of the correction teeth effect on life time, wear and contact strength of cylindrical involute gears	4	115
<i>Slobodian B. S.</i> Pressure of an elastic body on a rigid base with a groove, partly filled with liquid not wetting its surface	4	122
<i>Khoma M. S., Yurkevych R. M., Chumalo H. V., and Radkevych O. I.</i> The influence of welded joints defects of 17Г1СY pipe steel on hydrogen sulfide stress corrosion cracking resistance.....	4	129
<i>Pokluda J.</i> Theoretical strength of solids: recent results and applications	5	5
<i>Milman Yu. V., Nykyforchyn H. M., Hrinkevych. K. E., Tsyrunyk O. T., Tkachenko I. V., Voloshyn V. A., and Mordel L. V.</i> Assessment of the service degradation of a gas pipeline steel by destructive and non-destructive methods	5	13
<i>Student O. Z. and Krechkovska H. V.</i> Anisotropy of the mechanical properties of 15X1M1Φ degraded steel after its exploitation on HPP pipelines	5	19
<i>Hembara O. V. and Andreikiv O. Ye.</i> The influence of hydrogenation of oil-and-gas pipeline walls on their soil corrosion and life	5	27
<i>Andreiko I. M., Kulyk V. V., and Ostash O. P.</i> Corrosion fatigue fracture of steels of railway wheels.....	5	35
<i>Karpash O. M., Dotsenko Ye. R., and Karpash M. O.</i> Complex method of physical and mechanical properties evaluation of metalwork materials.....	5	40
<i>Karuskevych M. V., Zhuravel I. M., and Maslak T. P.</i> Use of fractal geometry in the problems of the residual life prediction of aviation constructions.....	5	48
<i>Dudik M. V. and Dikhtiarenko Yu. V.</i> Investigation of the initial period of rotation of the interface crack at the angular point of the media interface.	5	53
<i>Ignatovich S. R. and Yutskevych S. S.</i> The fatigue damage control of Al-clad D16AT alloy by characteristics of surface deformation relief.....	5	60
<i>Skoblo T. S. and Vlasovets V. M.</i> Characteristic properties of precipitation-hardening 60X2H4ГMΦ steel structure formation.....	5	66
<i>Savvakina D. G., Gumenyak M. M., Matvijchuk M. V., and Molyar O. G.</i> On the role of hydrogen in sintering of titanium powders	5	72
<i>Dzioba I. R.</i> The influence of microstructure components on static crack growth resistance of 13XMΦ steel	5	82
<i>Pichuhin A. T., Yaskiv O. I., Lukianenko O. H., and Pohreliuk I. M.</i> The influence of the phase – structural state of the near-surface layers on mechanical properties of BT1-0 titanium alloy	5	90
<i>Santos E. C., Kida K., Honda T., Koike H., and Rozwadowska J.</i> Fatigue strength improvement of AISI E52100 bearing steel by induction heating and repeated quenching	5	96
<i>Nyrkova L. I., Poliakov S. G., Osadchuk S. O., Melnychuk S. L., and Gapula N. O.</i> On the determination of atmospheric corrosion rate of metal constructions using polarization resistance method.....	5	101
<i>Borts B. V.</i> Formation of compounds of dissimilar metals in a solid phase by the method of hot rolling in vacuum.....	5	106
<i>Khoma M. S., Sysyn H. M., Radkevych O. I., and Golovchuk M. Ya.</i> Electrochemical properties of 17Г1СY steel welded joints.....	5	112
<i>Kunets Ya. I., Matus V. V., and Hrylytsky M. D.</i> Remote determination of the mechanical parameters of thin plane inclusions with weak contrast.....	5	118
<i>Vasiliev A. G.</i> The influence of hydrogen sorption on the kinetics of phase disintegration of RFe ₂ intermetallides	5	124

<i>Savruk M. P., Kazberuk A., and Tarasiuk G.</i> Stress distribution at the contour of a rounded V-shaped notch under antiplane strain.....	6	7
<i>Kryvyy O. F.</i> A circular interface crack in the non-uniform transversal-isotropic space.....	6	15
<i>Stashchuk M. H.</i> The influence of external loading on hydrogen redistribution in metal at stress concentrators.....	6	23
<i>Popov V. G.</i> Torsion oscillations of a finite elastic cylinder with an external circumferential crack.....	6	30
<i>Mirsalimov V. M. and Vagari A. R.</i> Partial crack closure in the perforated fuel cell.....	6	39
<i>Toribio J., Matos J. C., González B., and Escuadra J.</i> Environmentally-assisted fatigue crack growth in prestressing steel wires.....	6	45
<i>Havrysh V. I. and Kosach A. I.</i> A boundary-value problem for a piece-wise layer with foreign inclusions.....	6	52
<i>Yevtushenko O., Kutsei M., and Grzes P.</i> Numerical and analytical solutions of the heat problem of friction during braking.....	6	59
<i>Fedirko V. M., Pohreliuk I. M., and Samborskyi O. V.</i> Regularities of thermo-diffusion saturation of titanium alloys from amorphous boron in nitrogen.....	6	65
<i>Markashova L. I., Pozniakov V. D., Gaivoronskyi O. A., Berdnikova O. M., and Aleksieienko T. O.</i> Evaluation of strength and crack growth resistance of railway wheels after long-term operation.....	6	73
<i>Arendar L. A., Vasylyv Kh. B., and Shyrokov V. V.</i> The influence of loading on the deformation of surface layer of steels with boron-chromium coating.....	6	80
<i>Pashechko M. I. and Montusevych Yu.</i> Evaluation of wear resistance of Fe–Mn–C–B eutectic coatings, alloyed with Si, Ni i Cr, using multicriterion analysis.....	6	86
<i>Levytskyi V. O., Babizhetskyi V. S., Miakush O. R., Kovalchuck I. V., Riabov O. B., and Kotur B. Ya.</i> Phase equilibria in the Y–Hf–Fe system and hydrogenation properties of alloys.....	6	94
<i>Ūnal I., Zor S., and Atapek H.</i> The influence of artificial saliva on NiTi orthodontic wires: a study on surface characterization.....	6	101
<i>Wykpiś K., Popczyk M., Niedbala J., Budniok A., and Łagiewka E.</i> The influence of current density of deposition on Zn–Ni coatings properties.....	6	107
<i>Nazarchuk Z. T., Kuryliak D. B., Voitko M. V., and Kulynych Ya. P.</i> Diffraction of an elastic SH-wave at the interface crack in a rigid junction of the layer and an interface.....	6	115
<i>Karpash M. O. and Koturbash T. T.</i> Evaluation of acoustic oscillations energy losses under ultrasonic testing in natural gas.....	6	122
SHORT REPORTS		
<i>Paustovskyi O. V., Novikova V. I., Timofteieva I. I., Moliar O. H., Hubin Yu. V., Mordovets N. M., Isaieva L. P., and Kostenko A. D.</i> Spark treatment of BT22 alloy by chromium and tungsten electrode materials.....	1	109
<i>Andreiko I. M. and Kulyk V. V.</i> Temperature dependence of mechanical characteristics of wheel steels.....	1	113
<i>Bagliuk G. A., Napara-Volgina S. G., Orlova L. M., and Kud V. K.</i> The influence of the working layer thickness on the properties of hot-pressed powder layered composites.....	3	122
<i>Mykhalyna G. M., Vrublevska T. Ya., Urys' M. B., and Lutsyshyn Yu. Ya.</i> Analytical control of platinum group elements content in multicomponent systems.....	3	125
<i>Mykhayliv N. P.</i> Intensification of diffusive nickel plating of 5XHM steel.....	3	129
IN SCIENTIFIC CIRCLES		
<i>Rytsar D. I.</i> Defence of dissertations.....	1	116
<i>Stashchuk M. H.</i> Problems of brittle fracture mechanics.....	1	118
<i>Pichuhin A. T.</i> Problems of materials science and surface engineering of metals.....	1	121
<i>Veselivska H. H.</i> Corrosion. Corrosion protection of metals.....	1	124
<i>Nykyforchyn H. M.</i> Theoretical and experimental investigations in modern materials science and engineering technologies.....	3	131
<i>Pakiela Z. and Nykyforchyn H.</i> The 12 th Polish-Ukrainian-German Summer School on fracture mechanics and strength of materials.....	5	130
<i>Dmytrakh I. M. and Student O. Z.</i> The Ukrainian-Greek Symposium on Fracture Mechanics of Materials and Strength of Structures.....	6	129
JUBILEES		
Volodymyr Panasyuk (to the 85 th birthday).....	1	127
List of papers published in “Physicochemical Mechanics of Materials” in 2011	6	135
Authors' index	6	139
