

LIST OF PAPERS PUBLISHED IN “PHYSICOCHEMICAL MECHANICS OF MATERIALS” IN 2012

Borys Yevhenovych Paton – President of the National Academy of Sciences of Ukraine (50 years since the election for President of the Academy of Sciences).....	1	7
<i>Panasjuk V. V. and Bulyk I. I.</i> Use of hydrogen as a process environment for the formation of nanostructure in ferromagnetic samarium-cobalt alloys	1	9
<i>Ivanytskyi Ya. L., Shtayura S. T., and Kovalik M.</i> A method for determination of the crack growth resistance characteristics of elastoplastic materials.....	1	19
<i>Kit G. S. and Halazyuk O. V.</i> Plain deformation of a body with a thin heat-release band inclusion	1	26
<i>Sylovaniuk V. P. and Revenko A. V.</i> Long-term strength of the elastic containing an elliptical crack filled with visco-elastic material	1	33
<i>Andreikiv O. Ye., Skalskyi V. R., Matviiv Yu. Ya., and Kradinova T. A.</i> The life-time of plates with cracks under the long-term static loading	1	39
<i>Zhbadynskyi I. Ya. and Stankevych V. Z.</i> Solving of nonstationary problem for bimaterial with a crack and an interlayer using by boundary integral equation method.....	1	47
<i>Maruschak P. O. and Konovalenko I. V.</i> Computer evaluation of the depth of thermomechanical fatigue cracks by their length	1	54
<i>Malanchuk N. I. and Kaczyński A.</i> Friction interaction between two half-planes in the presence of surface recess	1	64
<i>Drobenko B. D.</i> Computational experiment for determination of steam boiler drum cyclic durability	1	72
<i>Mroziński S. and Lipski A.</i> Method of low-cycle fatigue test results processing	1	79
<i>Lyubimenko O. M.</i> Hydrogen induced form-changing of palladium plate	1	83
<i>Opainych I. Ye., Aksimientyeva O. I., Dyakonov V. P., Piekhota S., Ulanskyi J., Demchenko P. Yu., and Ukrainets A. M.</i> Structure and thermo-deformation properties of the polymer–magnetite hybrid composites	1	89
<i>Pokhmurskii A. Yu., Rusyn B. P., and Obukh Yu. V.</i> Evaluation of pitting defects influence on thin sheet Д16Т alloy	1	95
<i>Xu D. S., Xu X., Su Z. G., An J., and Lu Y.</i> Mechanical properties, wear and corrosion of boronized N80 tube steel	1	100
<i>Sheikin S. Ye., Rutkovskiy A. V., Rostotskyi I. Yu., Yefrosinin D. V., and Bondar V. K.</i> Increase of working capacity for titanium–chirulen friction pair	1	106
<i>Kyryliv V. I.</i> Increase of medium-carbon steel wear resistance by nanodispersion of surface layer.....	1	111
<i>Pokhmurskyi V. I. and Vasylyv Kh. B.</i> The influence of hydrogen on friction and wear of metals (Review)	2	5
<i>Kosogin O. V., Kushmyruk A. I., Miroshnichenko Yu. S., and Linyucheva O. V.</i> Electrochemical properties of catalytic-active electrode on the basis of titanium.....	2	18

<i>Khoma M. S., Yavorskii V. T., Dzioba Yu. V., and Sysyn H. M.</i> Influence of deformations on microelectrochemical heterogeneity of 17Г1СУ steel weld	2	25
<i>Shkatulyak N. M. and Tkachuk O. M.</i> On the role of crystallographic texture under corrosion of hot-drawn carbon steel rods	2	31
<i>Bilyi L. M. and Zin Ya. I.</i> Protective inhibited coatings on the basis of polyurethane	2	39
<i>Eshaghi Ameneh and Eshaghi Akbar.</i> Effect of chromate conversion coatings on the adhesion and corrosion resistance of painted 5083 aluminum alloy	2	47
<i>Chumalo H. V.</i> The effect of hydrogen sulfide on the corrosion and mechanical properties of pipe steel welded joints	2	51
<i>Student M. M., Dovhunyk V. M., Klapkiv M. D., Posuvailo V. M., Shmyrko V. V., and Kysia A. R.</i> Tribologic properties of combined metal-oxidoceramic layers on light metals	2	55
<i>Yulinova A., Nickel D., Frint P., and Lampke T.</i> Electrochemical properties of Al-6060 alloy after industrial-scale ECAP	2	65
<i>Bersirova O. L. and Kublanovsky V. S.</i> Corrosion properties of electrodeposited polycrystalline silver thin coatings	2	71
<i>Shepelenko O. S., Sakhnenko M. D., Shtamburg V. H., and Roshal O. D.</i> Nanoscale protective coatings forming on iron alloys from podands-containing solutions	2	77
<i>Malyshev V. V. and Gab A. I.</i> Formation of cathode products of thangstate-molybdate melts electrolysis	2	81
<i>Duhota O. I., Pohrelyuk I. M., Molyar O. H., Pichuhin A. T., and Lukyanenko O. H.</i> Effect of low-temperature oxidation and oxinitration on the VT22 titanium alloy fretting corrosion	2	85
<i>Ozturk A. U., E. Gucuyen R. T. Erdem, and Seker S.</i> Early age corrosion of mild steel in aggressive media	2	91
<i>Andreiko I. M., Holovatiuk Yu. V., Kovalchuk L. B., Semenets O. I., and Ostash O. P.</i> Low-temperature fatigue crack growth resistance of degraded B95 aluminium alloys	3	5
<i>Andreikiv O. Ye., Dolinska I. Ya., and Yavorska N. V.</i> Creep crack growth in structural elements under long-term loading	3	12
<i>Ivanytskyi Ya. L., Shtayura S. T., Molkov Yu. V., and Ivanytska L. M.</i> Fracture resistance of steels under biaxial loading in hydrogen	3	18
<i>Diveyev B. M., Kohut I. S., Butyter I. B., and Cherchyk H. T.</i> Identification of elasticity modules of layered beams using the experimental investigations and calculation models	3	24
<i>Chernets M. V., Yarema. R. Ya., and Chernets Yu. M.</i> The method of assessing the effect of correction and wear of cylindrical gearing teeth on durability and strength. Part. I. Durability and wear	3	30
<i>Zelenyak V. M.</i> Thermo-elastic interaction of a two-component circular inclusion and a crack in a plate	3	40
<i>Yaskiv O. I. and Fedirko V. M.</i> The influence of lead melts and Pb–Bi eutectics on mechanical properties of 20X13 ferritic-martensitic steel	3	46
<i>Bulyk I. I., Trostyanchyn A. M., and Liutyi P. Ya.</i> The influence of the durable interaction of SmCo ₅ -based alloy with low-pressure hydrogen on the phase composition	3	53

<i>Tkaczyk M., Krzak-Ros J., and Kaleta J.</i> Evaluation of mechanical and physico-chemical properties of protection coatings obtained by sol-gel method	3	59
<i>Markovsky P. Ye. and Molyar O. G.</i> Improvement of mechanical properties of T110 titanium alloy by optimization of thermo-mechanical and heat treatment	3	66
<i>Ivasyshyn A. D. and Podhurska V. Ya.</i> Strength and endurance of powder BT1-0 and Fe–18Cr–14Ni alloys in high-temperature hydrogen.....	3	72
<i>Ivaskevych L. M., Balitskii O. I., and Mochulskiy V. M.</i> The influence of hydrogen on static crack growth resistance of refractory steels.....	3	78
<i>Skalskyi V. R., Rudavskiy D. V., and Liasota I. M.</i> Residual stress calculation in the weld region during welding of thick plates by the electron-beam method	3	87
<i>Duriagina Z. A., Borysiuk A. K., Bepalov S. A., and Pidkova V. Ya.</i> The influence of cyclic processing on phase composition of ion-nitrided surface layers of 12X18H10T steel.....	3	94
<i>Olshanetskyi V. Yu. and Kysiliova I. Yu.</i> Prediction of distribution of the grain sizes in 03X18ТБч steel	3	99
<i>Malyshev V. V. and Shakhnin D. B.</i> The influence of temperature and composition of tungstate-molybdate melts on the morphology of their electrolysis sediments.....	3	103
<i>Golański G.</i> Mechanical properties of the GX12CrMoVNB91 (GP91) cast steel after different heat treatments	3	110
<i>Ratska N. B., Vasylyv Kh. B., and Vynar V. A.</i> The influence of oxidation on wear resistance of BH-10 alloy	3	117
<i>Slobodian Z. V., Mahlatiuk L. A., and Kupovych R. B.</i> The influence of surface treatment of iron, manganese and aluminium alloys on the character of their wetting with water solutions.....	3	122
<i>Uchanin V. M.</i> The invariant parameter of the effectiveness of eddy-current detection gauges.....	3	131
<i>Savruk M. P., Kazberuk A., and Tarasiuk G.</i> Stress concentration at the holes in an elastic plane under antiplane strain	4	5
<i>Ostash O. P., Voldemarov O. V., and Hladysh P. V.</i> Fatigue crack growth resistance of steels of long-term exploited steam pipeline bends.....	4	14
<i>Golynskyy I. S.</i> The influence of errors in stress evaluation in the crack tip vicinity on the accuracy of estimation of Williams series coefficient under transversal shear.....	4	25
<i>Ostryk V. I. and Ulitko A. F.</i> Oxysymmetric contact of two elastic bodies under friction and adhesion.....	4	30
<i>Stashchuk M. H. and Dorosh M. I.</i> Calculation of large polyethylene pipes with a hollow wall.....	4	39
<i>Kohut I. S.</i> The influence of structure defects on structure damping of unidirectional reinforced fibre composites	4	46
<i>Kosarevych R. Ya., Student O. Z., Svirska L. M., Rusyn B. P., and Nykyforchyn H. M.</i> Computer analysis of typical elements of fractographic images.....	4	53
<i>Matviiv Yu. Ya.</i> Long-term durability of the thin-walled structural elements with the low-temperature creep cracks under static loading	4	61
<i>Skalskyi V. R., Nazarchuk Z. T., and Hirnyi S. I.</i> The effect of electrolytically absorbed hydrogen on Young's modulus of structural steel.....	4	68

<i>Kopylets V. I.</i> Computer simulation of the influence of ceolite oxygen adsorption centers on chemisorption of hydrogen ions.....	4	76
<i>Konovalenko I. V. and Marushchak P. O.</i> Automated analysis of multiple cracking of a nanocoating using integral parameters.....	4	80
<i>Çöl M., Kir D., and Erişir E.</i> Wear and blanking performance of an AlCrN PVD coated punch.....	4	89
<i>Buketov A. V. and Krasnenkyi V. M.</i> The influence of filler dispersion on adhesion strength and residual pressure in epoxy composites.....	4	95
<i>Basaraba Yu. B., Zasadnyi T. M., and Lutsyshyn T. I.</i> Preparation of ferromagnet alloy powders using hydrogen dispersion in ultrasonic field.....	4	104
<i>Pichuhin A. T., Yaskiv O. I., Lukianenko O. H., and Pohreliuk I. M.</i> The influence of diffusion coatings on mechanical properties of BT14 titanium alloy.....	4	111
<i>Mordiuk B. M., Karasievska O. P., Rudoi P. E., Skyba I. O., and Kaminskyi H. H.</i> Ultrasonic effect on phase transformation and tensile flow stress of Zr18Nb alloy under tension.....	4	118
<i>Boichyshyn L. M., Hertsyk O. M., Kovbuz M. O., Pereverzieva T. H., and Kotur B. Ya.</i> The properties of amorphous Al-REM-Ni and Al-REM-Ni-Fe alloys with a nanocrystal phase.....	4	127
<i>Pustovoi V. M. and Reshchenko I. O.</i> Modeling of service degradation of steels of cargo port constructions in laboratory conditions.....	5	7
<i>Ostash O. P., Andreiko I. M., Kulyk V. V., and Vavrukh V. I.</i> The influence of braking on microstructure and mechanical behavior of railway wheel steels.....	5	15
<i>Petryna D. Yu., Kozak O. L., Shuliar B. R., Petryna Yu. D., and Hredil M. I.</i> The influence of alloying with rare earth metals on mechanical properties of 17Г1С pipe steel.....	5	21
<i>Yevtushenko O., Kuciej M., and Yevtushenko OI.</i> Modeling of frictional heating during braking.....	5	27
<i>Mechnyk V. A.</i> Diamond composite materials diamond-Fe-Cu-Ni-Sn with predictable stable characteristics.....	5	34
<i>Fedirko V. M., Pichuhin A. T., Lukyanenko O. H., and Trush V. S.</i> The evolution of microstructure of the BT1-0 titanium alloy surface layer under solid solution strengthening.....	5	43
<i>Matysiak S. J. and Perkowski D. M.</i> Green's function for an elastic layer with temperature dependent properties.....	5	49
<i>Volchok N. A., Sovkova T. S., and Bryukhanov P. A.</i> The effect of aluminum content on texture parameters of Ti-Al alloy sheets.....	5	55
<i>Akimov I. V., Sylovanyuk V. P., Volchok I. P., and Ivantyshyn N. A.</i> The influence of graphite inclusions form on mechanical properties of Fe-C alloys.....	5	61
<i>Matychak Ya. S.</i> Kinetic peculiarities of titanium nitriding caused by phase-structural transformations.....	5	67
<i>Pokhmurskii V. I., Dovhunyuk V. M., Student M. M., Klapkiv M. D., Posuvailo V. M., and Kytsia A. R.</i> The influence of silver nano-particles added to a lubricant on tribiological behaviour of combined metal oxide layers.....	5	73
<i>Balytskii O. I., Kolesnikov V. O., and Eliash Ya.</i> Investigation of wear-resistance of high-nitrogen steels under dry sliding friction conditions.....	5	78

<i>Kozak L. Yu.</i> Discrete models of martensitic transformation and twinning of metals.....	5	83
<i>Hrytsyna O. R.</i> Vibration induced by harmonic electric field in a crystal layer of cubic symmetry.....	5	88
<i>Lychak O. V. and Gołynskiy I. S.</i> Evaluation of accuracy of Williams coefficients under Mode I fracture.....	5	97
<i>Hembara O. V., Ivaskevych L. M., Mochulskiy V. M., and Chepil O. Ya.</i> Prediction of crack propagation kinetics and durability of vessels in gaseous hydrogen.....	5	103
<i>Skalskiy V. R., Liasota I. M., and Stankevych O. M.</i> Acoustic emission diagnostics of 1201-T aluminum alloy fatigue fracture initiation.....	5	110
<i>Nyrkova L. I., Osadchuk S. O., Rybakov A. O., Melnychuk S. L., and Gapula N. O.</i> Investigation of carbon steel atmospheric corrosion under formation of adsorption and phase water layers.....	5	117
<i>Vasyliiev G. S.</i> Linear polarization resistance measurement with computer data logging.....	5	124
<i>Ostash O. P., Anofriev V. G., Andreiko I. M., Muradian L. A., and Kulyk V. V.</i> On the concept of steels selection for high-strength railway wheels.....	6	7
<i>Maruschak P. O., Bishchak R. T., Vuherer T., and Hlado V. B.</i> Impact toughness of bimetallic specimens cut out from the rolls of continuous casting machines with welded layer.....	6	14
<i>Nakonieczny A. and Monka G.</i> Contact fatigue strength of 41CrAlMo7 grade steel by nitriding and shot-peening treatment.....	6	24
<i>Hvozdiuk M. M., Hembara O. V., and Boleichuk V. M.</i> Evaluation of crack growth resistance characteristics in unidirectional glass-plastics.....	6	30
<i>Pietrzak R., Szatanik R., Olchawa R., and Książek K.</i> The influence of mechanical damaging on positrons lifetime in ultra-high-molecular polyethylene.....	6	36
<i>Vengryniuk T. P.</i> Fatigue crack retardation by application of repair coating on gas pipelines under pressure.....	6	45
<i>Pokhmurskiy V. I., Dovhunyk V. M., and Kytsia A. R.</i> Silver nano-particles as friction modifiers in couples steel-steel.....	6	49
<i>Arendar L. A., Vasyliiv Kh. B., Vynar V. A., and Rudkovskiy Ye. M.</i> Wear peculiarities of zirconium in gas environments at different temperatures.....	6	52
<i>Chernets M. V., Yarema. R. Ya., and Chernets Yu. M.</i> The method of assessing the effect of correction and wear of cylindrical gearing teeth on durability and strength. Part. II. Contact fatigue.....	6	56
<i>Stashchuk M. H.</i> Account of the environment influence in evaluation of operating ability of metal products.....	6	60
<i>Balitskii O. I., Chmiel Ja., Dorobczyński L.</i> Correlation between pressure, amplitudes of potential and electrochemical oscillation current in cavitation conditions.....	6	67
<i>Fedirko V. M., Pohrelyuk I. M., Tkachuk O. V., and Proskurniak R. V.</i> Corrosion behaviour of BT6c titanium alloy with oxidized nitride layers in 0.9% NaCl at 36°C.....	6	70
<i>Skalskiy V. R., Matviiv Yu. Ya., and Simalovych O. H.</i> Dislocation mechanisms of microcracking. A review.....	6	76
<i>Pasternak Ya. M. and Sulym H. T.</i> Solution of antiplane shear problems for solids containing thin ribbon-like inclusions by integral equation methods. II. Analysis of stress concentration and intensity.....	6	86

<i>Chumak K. A. and Martynyak R. M.</i> Periodical contact problem of thermoelasticity for bodies with rough surfaces on local regions.....	6	92
<i>Sylovanyuk V. P. and Revenko A. V.</i> Conditions of the jump of stresses and displacements on thin visco-elastic inclusion.....	6	98
<i>Kravets V. S. and Vasiuta R. V.</i> Torsion of an elastic space with axisymmetric narrow cavity	6	102
<i>Stadnyk M. M.</i> Ellipsoidal elastic inclusion in a body under effect of constant heat flow on its surface.....	6	110
<i>Maksymenko O. P., Frankevych L. F., and Sakharuk O. M.</i> Material elastic modulus determination by digital image correlation technique	6	115
<i>Molkov Yu. V.</i> Application of digital image correlation technique for deformation curves plotting.....	6	121

SCIENCE FOR PRODUCTION

<i>Kovalenko S. Yu., Rybakov A. O., Klymenko A. V., and Shitova L. H.</i> Corrosion of an internal wall of industrial gas pipeline	2	97
<i>Andreikiv O. Ye., Hembara O. V., Tsyurulnyk O. T., and Nyrkova L. I.</i> Residual lifetime estimation for long exploited section of the main gas pipeline	2	103
<i>Student O. Z., Svirska L. M., and Dzioba I. R.</i> Influence of 12X1M1Φ steel long-time operation from different zones of power station steam pipeline bend on its mechanical properties.....	2	111
<i>Mishchenko V. H. and Yevsieieva N. O.</i> Influence of metal creepage on life time of reactors for thermomagnesium production of titanium.....	2	119
<i>Korolov V. P., Vysotskyy Yu. B., and Shevchenko O. M.</i> Technological safety and improvement of the standard base of building metal structures corrosion protection	2	123

IN SCIENTIFIC CIRCLES

<i>Rytsar D. I.</i> Defence of dissertations.....	1	115
<i>Stashchuk M. H.</i> Problems of brittle fracture mechanics.....	1	118
<i>Veslivska H. H.</i> Corrosion. Corrosion protection of metals.....	1	120
<i>Kapshii O. V.</i> Research and training workshop for young scientists “PhMI Scientific Schools – from generation to generation”	1	124
<i>Panasyuk V. V.</i> Academician M. Ya. Leonov – to the 100 th birthday	4	131
<i>Nykyforchyn H. M.</i> The Nineteenth European Conference on Fracture (ECF-19)	5	127

JUBILEES

Ihor Konstantynovych Pokhodnia (to the 85 th birthday)	1	129
Zinovii Nazarchuk (to the 60 th birthday)	2	131
Ihor Dmytrakh (to the 60 th birthday).....	4	135
Mykhailo Savruk (to the 70 th birthday)	5	130
Waclaw-Antoni Kasprzak (to the 80 th birthday).....	6	126
<i>List of papers published in “Physicochemical Mechanics of Materials” in 2012</i>	6	128
<i>Authors’ index</i>	6	134
