

LIST OF PAPERS PUBLISHED IN “PHYSICO-CHEMICAL MECHANICS OF MATERIALS” IN 2017

<i>Lobanov L. M., Pashchyn N. A., Mikhodui O. L., and Cherkashyn A. V.</i> Effect of parameters of electrodynamic actions on the stressed state of AMg6 alloy sheets welded joints.....1	7
<i>Knysh V. V., Solovei S. A., Kadishev A. A., Nyrkova L. I., and Osadchuk S. A.</i> The influence of high-frequency peening on corrosion fatigue of welded joints.....1	12
<i>Lysenkov E. A., Gagolkina Z. O., Lobko E. V., Tkalich M. G., and Klepko V. V.</i> The influence of carbon nanotubes on mechanical properties of the cross-linked polyurethanes.....1	18
<i>Pidgaichuk S. Ya., Yavorska N. M., and Abramov O. O.</i> Determination of the optimal modes of annealing of composite electrolytic nickel-based coatings.....1	25
<i>Tsekanov Yu. A., Sheykin S. E., Pohrelyuk I. M., Karikh D. V., and Sergach D. A.</i> Modification of the surface of spheres from BT1-0 titanium by combining cold plastic deformation and thermodiffusion saturation with nitrogen.....1	29
<i>Gubenko S. I.</i> The influence of laser treatment on the strengthening of inclusion-steel matrix interphase under plastic deformation.....1	35
<i>Glotka A. A. and Moroz O. M.</i> The influence of distribution of carbides wear on 110X18M-IIIД (440°C) steel.....1	40
<i>Shtefan V. V., Yepifanova A. S., Kovaliov A. A., and Bairachnyi B. I.</i> Electrodeposition of very hard coatings of cobalt-molybdenum alloy.....1	44
<i>Ostash O. P., Chepil R. V., and Hrybovska V. I.</i> On the determining parameters of serviceability of elastic clamps of railway joints.....1	50
<i>Buketov A. V., Sapronov O. O., Brailo M. V., Zinchenko D. O., and Nigalatii V. D.</i> Investigation of hydro-abrasive wear of epoxy composites containing a two-component filler.....1	56
<i>Efremenko V. G., Zurnadzhy V. I., Chabak Yu. G., Tsvetkova E. V., and Dzherenova A. V.</i> Application of Q-n-P-treatment for improving wear resistance of low-alloyed steel with 0.75% C.....1	61
<i>Mahamood R. M. and Akinlabi E. T.</i> Effect of scanning speed treatment on the microstructure, microhardness, wear and corrosion behaviour of laser metal deposited Ti-6Al-4V/TiC composite.....1	69
<i>Yuanli Du, Molkov Yu. V., Lenkovskiy T. M., and Kovalchuk R. A.</i> Stress-strain state analysis of the process zone under biaxial loading of a plate with a central crack.....1	78
<i>Ostryk V. I.</i> A closed semi-infinite crack at the boundary of an elastic strip and a rigid wall.....1	84
<i>Hembara O. V., Chepil O. Ya., and Hembara T. V.</i> Application of energy approach to the evaluation of serviceability of a steam boiler drum under thermal cycling and hydrogenation.....1	90
<i>Marushchak P. O., Konovalenko I. V., Chausov M. G., Bishchak R. T., and Pylypenko A. P.</i> Assessment of material damaging by the results of tensometry and computer analysis of the state of the surface deformation relief.....1	96
<i>Acuña Gonzales N. A., Bilyy O. L., and González Sánchez J. A.</i> Monitoring of critical length of crack-like defects in the plate bone cement because of their different geometry.....1	102

<i>Znak Z. O. and Zin O. I.</i> Decrease of corrosion activity of liquid waste in production of chlorine and caustic soda.....1	108
<i>Labur T. M., Ostash O. P., Holovatyuk Yu. V., Koval V. A., and Shynkarenko V. S.</i> Influence of alloying and thermal treatment on strength and cyclic crack resistance of Al–Cu–Mg alloy welded joints. P. 1.....2	7
<i>Neimitz A. and Dzioba I. R.</i> Fracture toughness of the high-strength steels within the ductile to cleavage transition temperature range – Master Curves.....2	16
<i>Solonin Yu. M., Galiy O. Z., Grayvoronska K. A., and Khyzhun O. Y.</i> Influence of oxidation on surface state and electrode capacitance of Zr–Mn–Cr–Ni–V alloy.....2	24
<i>Pohrelyuk I. M., Sheykin S. E., Lavrys S. M., Sergach D. A., and Baytser A. E.</i> Influence of BT22 alloy structural factors on surface hardening during deformation-diffusion treatment.....2	30
<i>Borts B. V., Korotkova I. M., Lopata O. T., Sytin V. I., Tkachenko V. I., and Vorobyov I. O.</i> Method of solid-state welding of austenitic and oxide dispersion strengthened steels.....2	36
<i>Mokra I. R., Fedorchuk A. O., Fedyna L. O., and Fedyna M. F.</i> Peculiarities of phase formation and crystal structures of compounds in the ternary Tm–Cu–Si system.....2	41
<i>Balaban O. V., Grygorchak I. I., Kondyr A. I., Zaichenko A. S., Mitina N. E., Datsyuk V. V., Trotsenko S. E., and Miagkota O. S.</i> Investigation of planar quantum functional polymer nanolayers structures on polybenzimidazole fiber nanosheets.....2	47
<i>Demchenko V. L. and Iurzhenko M. V.</i> Structure and properties of welded joints of one-type polyethylene formed under constant magnetic field.....2	54
<i>Trush V. S., Fedirko V. M., Luk'yanenko O. H., and Kovtun K. V.</i> The optimization of thermal treatment environment of GFE-1 hafnium alloy.....2	61
<i>Lenkovskiy T. M.</i> Fatigue crack growth resistance of heat-treated 65Г steel under transverse shear.....2	66
<i>Kharchenko Ye. V., Student O. Z., and Chumalo H. V.</i> Influence of 17Г1С steel degradation on its properties after service on the main pipeline.....2	72
<i>Andreikiv O. Ye., Nykyforchyn H. M., Shtoiko I. P., and Lysyk A. R.</i> Assessment of residual lifetime of oil pipes with outer surface corrosive mechanical crack under oil laminar flow and reusable hydroblow.....2	80
<i>Czaban J. and Kaminski Z.</i> Identification of mechanical properties of compound feeds for modelling the processes of thickening and compaction.....2	89
<i>Topczewska K.</i> Influence of friction power on temperature during braking.....2	96
<i>Moshchenok V. I., Lalazarova N. O., Moshchenok A. V., and Demchenko S. V.</i> Evaluation of materials nanohardness by the spheroconical indenter.....2	102
<i>Ledovskyykh V. M. and Levchenko S. V.</i> Electric-mechanical method for the preparation of steel surfaces by galvanized brush.....2	109
<i>Shvabyuk V. I., Matkova A. V., Luniov S. V., and Shvabyuk V. V.</i> The method of shear modulus determination for n-Ge and n-Si single crystals.....2	115
<i>Shopa T. V.</i> Vibration of orthotropic doubly curved panel with sets of cut-outs and inclusions of arbitrary configuration.....2	121
<i>Hrytsyna O. R.</i> The effect of near-surface inhomogeneity on propagation of SH waves in isotropic materials.....2	128
<i>Kindrachuk M. V., Volchenko D. A., Volchenko N. A., Stebeletska N. M., and Voznyi A. V.</i> Influence of hydrogen on wear resistance of material in a friction pair of braking device.....2	135
<i>Balitskii A. I., Abramek K. F., Mrozik M., Stoeck T., and Osipowicz T.</i> Evaluation of hydrogen containing gasses losses during wear of piston engine.....2	142
<i>Skalskiy V. R., Nazarchuk Z. T., Dolinska I. Ya., Yarema R. Ya., and Selivonchuk T. V.</i> Acoustic-emission diagnostics of corrosion damages of materials (A review). P. 1. Detection of electrochemical corrosion and corrosion fatigue.....3	7

<i>Zavaliy I. Yu., Verbovitskyy Yu. V., Berezovets V. V., Shtender V. V., Pecharsky V. K., and Lyuty P. Ya.</i> Synthesis, structure and hydrogenation properties of (Ti,Zr) ₄ Ni ₂ N _x subnitrides	3	18
<i>Slobodyan Z. V., Mahlatyuk L. A., Kupovych R. B., Yatsyuk R. A., and Zin Ya. I.</i> Peculiarities of aluminium and copper contact corrosion in NaCl solutions	3	26
<i>Bairachnyi B. I., Zhelavskiy S. H., Maizelis A. O., and Voronina O. V.</i> Corrosion behaviour of electrode materials for production of hydrogen	3	32
<i>Hertsyk O. M., Kovbuz M. O., Boichyshyn L. M., Pereverzeva T. G., and Reshetnyak O. V.</i> Influence of alloying on corrosion resistance of Fe-based bulk amorphous alloys based	3	37
<i>Herasymenko R. Yu., Vasylev H. S., and Herasymenko Yu. S.</i> The increase of corrosion monitoring validity for low-carbon steel in tap water	3	43
<i>Stechyshyn M. S., Martynyuk A. V., Bilyk Yu. M., Oleksandrenko V. P., and Stechyshyn N. M.</i> Influence of steels ion nitriding in glow discharge on layers structure and properties	3	49
<i>Kryshchyna S. I., Petryna D. Yu., Bohatchuk I. M., Prunko I. B., and Melnyk V. M.</i> Surface strengthening of 40X steel by electric spark alloying.....	3	56
<i>Student M. M., Dovhunyk V. M., Posuvailo V. M., Kovalchuk I. V., and Gvozdetzkyi V. M.</i> Friction behaviour of iron-carbon alloys in coupling with PEO layers synthesized on Д16Т alloy.....	3	63
<i>Sokolova H. M. and Pastukh I. M.</i> Energetic aspects of nitriding modeling in glow discharge.....	3	71
<i>Sakhnenko M. D., Ved M. V., and Ovcharenko O. O.</i> Physical and mechanical properties of composite electrochemical coatings and Ni-based foils reinforced by Al ₂ O ₃	3	76
<i>Levytskyi V. Ye., Katruk D. S., Kochubei V. V., Humenetskyi T. V., Bilyi L. M., and Masyuk A. S.</i> Influence of polyvinylchloride on chemical and thermal durability of highly filled polyester composites.....	3	86
<i>Suberlyak O. V., Baran N. M., and Yatsulchak H. V.</i> Physical and mechanical properties of films based on polyamide with polyvinylpyrrolidone mixtures	3	93
<i>Kit H. S. and Andriichuk R. M.</i> Thermoelastic state of half-space with clamped boundary at heat-generation in circular domain parallel to it	3	98
<i>Antonenko N. M.</i> Plane thermoelastic deformation of elastically of multilayer plate linked with rigid half-plane.....	3	105
<i>Rozumek D. and Faszynka S.</i> Influence of notch radius on fatigue crack propagation in beam specimens of 2017A-T4 alloy	3	112
<i>Kozak L. Yu.</i> Investigations of unstable crystal lattice on discrete models	3	118
<i>Skalskyi V. R., Nazarchuk Z. T., Dolinska I. Ya., Yarema R. Ya., and Selivonchik T. V.</i> Acoustic-emission diagnostics of corrosion damages of materials (A review). P. 2. Corrosion cracking of metals. Applied aspects of the method application	4	7
<i>Demchenko V. L.</i> Peculiarities of structural organization and thermomechanical properties of nanocomposites pectin-AG-P4VP formed under constant effect of magnetic field	4	20
<i>Labur T. M., Ostash O. P., Holovatyuk Yu. V., Koval V. A., and Shynkarenko V. S.</i> Influence of alloying and thermal treatment on strength and cyclic crack resistance of Al–Cu–Mg alloy welded joints. P. 2.....	4	28
<i>Student O. Z., Krechkovska H. V., Palashchuk T. Ye., and Hladkyi Ya. M.</i> The influence of long-term operation of 12 X1MΦA steel bends of the main HPP pipelines on its mechanical properties.....	4	34
<i>Kaplun P. V., Dykha A. V., and Gonchar V. A.</i> Contact endurance of 40X steel in different media after ion nitriding and nitroquenching.....	4	42
<i>Malyshev V. V., Shakhnin D. B., and Gab A. I.</i> Properties of galvanic tantalum coatings obtained from chloride-fluoride melts	4	48

<i>Ghazvinloo H. R., Honarbakhsh-Raouf A., and Kiani-Rashid A. R.</i> Mechanical properties of a high Si and Mn steel heat treated by two-step quenching and partitioning.....4	54
<i>Kuntyi O. I., Zozulya G. I., Dobrovetska O. Ya., Korniy S. A., and Reshetnyak O. V.</i> Copper, silver and nickel deposition on aluminium by the galvanic replacement.....4	60
<i>Shyrovkov V. V. and Shyrovkov O. V.</i> The influence of durable aging under loading on physicochemical properties of vanadium.....4	66
<i>Skoblo T. S., Sidashenko O. I., Satanovskii Ye. A., Oliinyk O. K., and Maltsev T. V.</i> Wearing features of oil scrapper piston rings with tin coating under bench tests for friction and wear.....4	71
<i>Kyryliv V. I., Chaikovskii B. P., Maksymiv O. V., and Shalko A. V.</i> Contact fatigue of 20XH3Φ and 55CMΦA steels with surface nanostructure in corrosive-abrasive environments4	78
<i>Andreikiv O. Ye., Lysyk A. R., Shtayura N. S., and Babii A. V.</i> Estimation of residual life-time of thin-walled structural elements with short corrosion-fatigue cracks.....4	84
<i>Lagoda T., Kulesa A., Kurek A., and Koziarska J.</i> Correlation of uniaxial cyclic torsion and tension-compression for low-cycle fatigue4	91
<i>Fabing Qin, Hembara O. V., and Chepil O. Ya.</i> Modeling of hydrogen effect on bearing capacity of structures of power equipment under temperature creep.....4	99
<i>Onyshko O. Ye.</i> Modeling of physical and mechanical behavior of solids with shape memory under electric field action4	107
<i>Konovalenko I. V. and Marushchak P. O.</i> Use of fuzzy sets properties for computer analysis of tear pits shape and sizes4	112
<i>González Sánchez J. A., Bilyy O. L., and Yukhym R. Ya.</i> Evaluation of limestone strength after long-term weathering in natural conditions4	122
<i>Pokhmurskii V. I., Zin I. M., Student M. M., Tymus M. B., Veselivska H. H., and Stupnytskyi T. R.</i> Improvement of corrosion-resistant properties of working emulsion for mine hydraulic systems4	129
<i>Panasyuk V. V. and Sylovanyuk V. P.</i> Estimation of stress concentration near thin elastic or viscoelastic inclusions5	7
<i>Savruk M. P., Kvasniuk O. I., and Chornenkyi A. B.</i> Periodic system of closely spaced holes in elastic plane under antiplane strain.....5	16
<i>Sulym H. T. and Piskozub Y. Z.</i> Nonlinear deformation of thin interphase inclusion.....5	24
<i>Kravets V. S.</i> Stress state of a plane wedge-shaped specimen with an edge crack under uniaxial tension.....5	31
<i>Skalskyi V. R., Rudavskyi D. V., Yarema R. Ya., and Kaniuk Yu. I.</i> Mechanical stresses distribution in tyre during its pressing at wheel centre of electric lokomotive5	42
<i>Revenko V. P.</i> Calculation of axisymmetric stress-strain state of two-layer cylinder under local loads5	48
<i>Dolinska I. Ya.</i> Calculation of residual resource of steam turbine rotor disk considering the number of the equipment shut-downs5	54
<i>Ogorodnikov V. A., Grechanyuk M. S., and Gubanov A. V.</i> Energetic reliability criretion of structural elements for transport means5	61
<i>Topczewska K.</i> Influence of the friction power on the temperature stresses during single braking5	66
<i>Panchenko O. V., Ivanytskyi Ya. L., Kun P. S., and Zhuravskyi O. D.</i> Determiation of durability of the ferroconcrete beam, reinforced with composite band5	73
<i>Zakharova L. M.</i> Simulation of irreversible deformation of ground and rock mass by methods of elasticity theory5	578

<i>Tsyurulnyk O. T., Kret N. V., Voloshyn V. A., and Zvirko O. I.</i> Method of laboratory degradation of structural steels.....5	85
<i>Ostash O. P., Chepil R. V., Markashova L. I., Hrybovska V. I., Kulyk V. V., and Berdnikova O. M.</i> Influence of thermal treatment on the endurance of 65Г steel springs.....5	94
<i>Fedirko V. M., Pohrelyuk I. M., Lukianenko O. H., Lavrys S. M., Kindrachuk M. V., Dukhota O. I., Tisov O. V., and Zahrebelnyi V. V.</i> Thermodiffusional saturation of BT22 titanium alloy surface from the controlled oxygen-nitrogen-containing gas environment on the aging stage.....5	100
<i>Hvozdetzkyi V. M., Sirak Ya. Ya., Zadorozhna Kh. R., and Demianchuk Ya. M.</i> Influence of drops size and flow rate on structure and properties of arc spraying coatings.....5	110
<i>Korzekwa J., Gądek-Moszczak A., and Zubko M.</i> Influence of nanoparticle's size on microstructure of oxide coatings.....5	116
<i>Vynar V. A., Pokhmurskii V. I., Zin I. M., Vasylyv Ch. B., and Khlopyk O. P.</i> Estimation of Д16Т alloy tribocorrosion mechanism by electrode potential.....5	123
<i>Stechyshyn M. S., Stechishyna N. M., and Kurskoy V. S.</i> Corrosive and electrochemical characteristics in acid model environments of metal layers nitrated in a glow discharge.....5	129
<i>Bersirova O. L., Bilyk S. V., and Kublanovsky V. S.</i> Electrochemical synthesis of nanostructured electrocatalytic Fe–W coatings.....5	136
<i>Bouti S., Antonova M. N., Hamouda K., Babichev A. P., and Sayah T.</i> The structure and mechanochemical properties of solid lubricant MoS ₂ using vibration wave treatment.....5	142
<i>Korniy S. A., Pokhmurskii V. I., and Chervinska N. R.</i> Quantum-chemical analysis of the mechanism of binary platinum nanoclusters degradation by sulphur-containing compounds.....6	7
<i>Khoma M. S., Holovei S. A., Ivashkiv V. R., and Vasylyv Kh. B.</i> The effect of sulphides on hydrogen overtension and hydrogenation of Y8 steel in chloride-hydrogen-sulphide environments.....6	16
<i>Chausov M. G., Maruschak P. O., Pylypenko A. P., and Khaburskyi Ya. M.</i> Influence of dynamic non-equilibrium processes on mechanical properties and corrosive durability of titanium alloy.....6	23
Ozhigov L. S. , <i>Mitrofanov A. S., Dobrovolska I. Yu., Shramchenko S. V., Vasylenko R. L., Rybalchenko N. D., and Krainiuk Ye. O.</i> Corrosion damages of pipelines at NNP and problems of their control.....6	30
<i>Levchenko S. V. and Ledovskykh V. M.</i> Synergistic effects in the mixtures of surfactants in mechanical processing of metals.....6	36
<i>Student M. M., Posuvailo V. M., Veselivska H. H., Sirak Ya. Ya., and Yatsyuk R. A.</i> Corrosion resistance of plasma-electrolytic layers on Al–Cu–Mg alloys and coatings under different heat treatment.....6	42
<i>Pohreliuk I. M., Fedirko V. M., Tkachuk O. V., Proskurniak R. V., and Koroliova T. V.</i> Corrosion behaviour of BT6c titanium alloy in physiological solution after chemical heat treatment.....6	48
<i>Znak Z. O., Mertsalo I. P., and Bukliv R. L.</i> Electrochemical characteristics of acid solutions of used saline chemical current sources.....6	57
<i>Syrotiuk A. M., Leshchak R. L., and Dorosh M. I.</i> Experimental and analytical evaluation of pipe steels hydrogenation.....6	62
<i>Kaplun P. V.</i> Impact of hydrogen on ion nitriding of steels.....6	68
<i>Stashchuk M. H.</i> The influence of hydrogen concentration on stresses in a solid metal cylinder.....6	73
<i>Khyl S. V., Rudavskiy D. V., Kaniuk Yu. I., and Sas N. B.</i> Determination of the period of subcritical internal crack growth in the rail head under service loading.....6	80

<i>Andreikiv O. Ye., Shtoiiko I. P., and Raiter O. K.</i> Determination of the period of subcritical growth of internal surface corrosive-mechanical crack in the oil pipeline pipe under turbulent flow of oil and hydro blows.....6	88
<i>Ivanytskyi Ya. L., Kun P. S., Lenkovskiy T. M., Molkov Yu. V., and Shtayura S. T.</i> Choice of the measuring base of displacements for determining deformations by the optical-digital image correlation method	6 94
<i>Kovalenko V. I., Martynenko L. I., and Marynin V. H.</i> Durability of vacuum-arc niobium nitride coatings under action of abrasive and cavitations	6 99
<i>Conrath E. and Berthod P.</i> Properties of a HFC-reinforced nickel-based superalloy in creep and oxidation at 1100°C	6 104
<i>Pokhmurska H. V., Holovchuk M. Ya., Dzioba Yu. V., Hvozdettskyi V. M., and Dzyubyk L. V.</i> Influence of cored wire diameter on structure and properties of arc sprayed coatings.....6	110
<i>Nemchuk O. O.</i> Peculiarities of diagnostics of the technical state of port transship equipment steels.....6	116

IN SCIENTIFIC CIRCLES

<i>Stashchuk M. H.</i> Problems of brittle fracture mechanics	1 113
<i>Lukianenko O. H.</i> Problems of materials science and surface engineering of metals ...	1 115
<i>Chervinska N. R.</i> Corrosion. Corrosion protection of metals	1 118
<i>Dmytrakh I. M.</i> General meeting of the Ukrainian Society on Fracture Mechanics of Materials.....	4 136
<i>Kushnir R. M., Zvirko O. I.</i> The Fourteenth International Conference on Fracture (ICF 14)	4 139
<i>Nykyforchyn H. M.</i> The IV Summer School on Fracture Mechanics of the European Structural Integrity Society.....	5 151
<i>Marushchak P. O.</i> The Fifth International Conference “Damage of materials during exploitation, methods of its diagnostics and prediction” (DMDP-2017).....	5 153
List of papers published in “Physicochemical Mechanics of Materials” in 2017.....	6 119
Authors’ index	6 125
