Low-Temperature Radiation Effects in Wide Gap Materials

Guest Editors A.I. Popov, A.Ch. Lushchik, and E.A. Kotomin

<i>Preface</i>	687
<i>Rogulis Uldis</i> Optical detection of paramagnetic centres: from crystals to glass-ceramics	689
<i>Kuzmin A., Pankratov V., Kalinko A., Kotlov A., Shirmane L., and Popov A.I.</i> UV-VUV synchrotron radiation spectroscopy of NiWO ₄	694
<i>Lushchik A., Lushchik Ch., Nagirnyi V., Shablonin E., and Vasil'chenko E.</i> Low-temperature creation of Frenkel defects via hot electron-hole recombination in highly pure NaCl single crystals	699
<i>Kalinko A., Kuzmin A., Roy P., and Evarestov R.A.</i> Synchrotron-based far-infrared spectroscopy of nickel tungstate	705
<i>Bocharov D., Žguncs P., Piskunov S., Kuzmin A., and Purans J.</i> Electronic structure of cubic ScF ₃ from first-principles calculations	710
<i>Trukhin A.N.</i> Luminescence of SiO ₂ and GeO ₂ crystals with rutile structure. Comparison with α -quartz crystals and relevant glasses (Review Article)	716
<i>Klotins E.</i> A novel quantum field approach to photoexcited insulators	726
<i>Sarakovskis A., Grube J., Strals K., Krieke G., Springis M., Mironova-Ulmane N., Skvortsova V., Yukhno E.K. and Bashkirov L.A.</i> Temperature and impurity concentration effects on upconversion luminescence in LaInO ₃ doped with Er ³⁺	733
<i>Shunkeyev K.Sh., Zhanturina N.N., Aimaganbetova Z.K., Barmina A.A., Myasnikova L.N., Sagymbaeva Sh.Zh., and Sergeev D.M.</i> The specifics of radiative annihilation of self-trapped excitons in KI–Tl crystal at low temperature deformation	738
<i>Mironova-Ulmane N., Skvortsova V., and Popov A.I.</i> Optical absorption and luminescence studies of fast neutron-irradiated complex oxides for jewellery applications	743
<i>Kuzovkov V.N., Popov A.I., Kotomin E.A., Moskina A.M., Vasil'chenko E., and Lushchik A.</i> Theoretical analysis of the kinetics of low-temperature defect recombination in alkali halide crystals	748
<i>Karbovnyk I., Bolesla I., Rovetskyi I., Lesivtsiv V., Shmygelsky Ya., Velgosh S., and Popov A.I.</i> Long-term evolution of luminescent properties in CdI ₂ crystals	756
<i>Savchyn V.P., Popov A.I., Aksimentyeva O.I., Klym H., Horbenko Yu.Yu., Serga V., Moskina A., and Karbovnyk I.</i> Cathodoluminescence characterization of polystyrene–BaZrO ₃ hybrid composites	760
<i>Klym H., Ingram A., Shpotyuk O., Hadzaman I., Solntsev V., Hotra O., and Popov A.I.</i> Positron annihilation characterization of free volume in micro- and macro-modified Cu _{0.4} Co _{0.4} Ni _{0.4} Mn _{1.8} O ₄ ceramics.....	764
