

Table of Contents

<i>Drozd K., Swierczynski E., Ragan E., Buil C.</i> V407 Cyg and RS Oph – comparison of two exotic variables	75
<i>Shchurova A. V., Pavlenko E. P., Malanushenko V. P.</i> The two accretion states of the polar 1RXS J184542 in 2012	79
<i>Belan S. P., Shakhovskoy D. N.</i> Long-term photopolarimetric variability of DD Ser	81
<i>Fursiak Yu. A.</i> Fast-growing sunspot groups AR1618, AR1619, AR1620, AR1640 and their features	84
<i>Baran O. A.</i> Power spectra of convective motions in the solar photosphere	89
<i>Glubokova S. K., Chashei I. V., Tyul'bashev S. A., Shishov V. I.</i> Changes in the spectral index of the interplanetary plasma turbulence in the period of low solar activity from observations of strongly scintillating source 3C 298	94
<i>Saliuk D. A.</i> Application of the full reduction technique for solution of equations with vector form non-linearity	98
<i>Bovchaliuk A.</i> The spatial variability of PM _{2.5} over Europe using satellite POLDER-3/PARASOL data	102
<i>Zaitsev S. V., Rosenbush V. K., Kiselev N. N.</i> Database of satellite polarimetry	109
<i>Pomazan A. V., Maigurova N. V.</i> Optical observations of the selected asteroids with measurable Yarkovsky effect	113
<i>Tugay A. V.</i> Bright X-ray galaxies in SDSS filaments	116
<i>Vasylenko A. A., Fedorova E., Zhdanov V. I.</i> Observations of Sy2 galaxy NGC 3281 by XMM-Newton and INTEGRAL satellites	120
<i>Sydorenko M. V., Marchenko V. V., Sushchov O. B., Kobzar O. O.</i> Stochastic scattering in Cen A radio lobes	126
<i>Kats A. V., Kontorovich V. M.</i> Explosive evolution of galaxies at high redshifts due to minor mergers	131
<i>Rogozin D. A., Zadorozhna L. V.</i> Electromagnetic radiation of superconducting cosmic strings	135
<i>Tkachuk V. V., Choliy V. Ya.</i> On the comparison of fundamental numerical ephemerides	141
<i>Pokhvala S. M., Reshetnyk V. M., Zhilyaev B. E.</i> Tests of commercial colour CMOS cameras for astronomical applications	145
