Attention! Due to inclusion of the journal into some international bibliography and reference databases, the References of publications should be prepared in **two blocks**: LITRATURE and REFERENCES (this requirement is also eligible for publications in English):

1) LITRATURE – sources of reference in Ukrainian, prepared in accordance with the Ukrainian standard of bibliography description (Form # 23, approved by the Decree of the State Certification Committee of Ukraine from March 3, 2008 №147).

With VAK.in.ua (<http://vak.in.ua>) You can quickly, easily and automatically place your «LITERATURE» according to the requirements of the Higher Attestation Commission (HAC) of Ukraine and draw reference to the scientific sources in Ukraine clear and unified.

This portal facilitated procedures for issuing scientific sources and transmission Control of norms while writing your papers, theses and other scientific works.

2) REFERENCES – the same list of references transliterated * into English. (guidelines of international bibliographic standard APA-2010, guidelines of transliterated references at <http://www.dse.org.ua>, section for authors). Words «Література» and «References» should be written in standard capitals. Surnames of authors in the references should be standard italics.

The titles of periodic journals in Ukrainian and Russian languages (journals, collections, etc.) are given in transliterated form (guidelines of Ukrainian transliteration: decree of the Cabinet of Ministers of Ukraine from 27 of January, 2010 №55, The Government Courier from 10.02. 2010 №5), while they should be accompanied with English translation in brackets. <http://www.slovnkyk.ua/services/translit.php>

References to the used sources, statistics and data are mandatory and should be specified in chronologic order within the text (a number in brackets), the list of references should be placed in the end of publication. References to works of foreign authors are mandatory in the section «Analysis of recent studies and publications» and through the text (their names are given in the language of origin – Ukrainian, Russian, and in English in italics in brackets). The titles of works (no more than 15) in the list of references are mentioned in accordance with order of citing in the text.

Instead of short summaries in Ukrainian and English, the text of publication should be supplied with reference description of basic ideas of publications (abstracts of 1-1.5 A4 pages each, 12 font) in English and Russian in the end. Above the abstracts, author's surname and name are placed (*standard italics*), below – scientific degree, academic rank, position where the author (authors) of the article, the full post address (with postal code) organization where the author (authors) in Russian and English respectively. Next – the title of publication (in Russian and English) and text of abstracts. Below the abstracts, the key words are placed in Russian and English respectively (*standard italics*).

A manuscript is a subject for an internal and external reviewing by the members of the

Editorial Board, the specialists of respective research field. If review should be negative or contain substantial criticism, a manuscript should be declined or returned to its author for an improvement. The Editorial Board examines the manuscript, and the Academic Council of the Institute recommends it for publishing.

For the fair examination of scientific value of manuscript, it is possible to provide an independent blind review (without specification of names of authors and reviewers).

The author is responsible for adherence to the specifications. A manuscript that does not meet the specification should not be published.

During the finalization of articles on the comments of reviewers author allocates yellow version of article 2 changed text, added suggestions, tables, pictures or other material added to the operational validation reviewer recorded comments on reviews.

The Editorial Board has a privilege to review, edit, abridge (not changing author's opinion), and select the manuscripts. Declined manuscript should not be returned.

The author is responsible for authenticity of the information, data, references, names and translation.

The materials that are being published in the journal reflect the view of their authors, and not necessarily are agreeing with the position of Editorial Board.

«Demography and social economy» used double-blind reviewing procedure model, each article reviewed by two referees which may be members of the journal's Editorial Board, outside experts, or both.

GUIDELINES OF REFERENCES IN THE ENGLISH TRANSLITERATION*

Correct description of references is important for consideration of a publication when **estimating scientific activity of authors**, and – thus – of an institution, region, country. **Citation rate is a criterion of the journal's scientific level**, authority, efficiency of its editorial board, etc. Thus, the most important components of **references are presented by author's surnames and journals' titles**. To provide consideration of all authors in the system, **it is necessary to put all authors into publication's reference**, instead of cutting down their number by three or four of them, etc. In such case the titles of publications provide additional information about their contents and Scopus recommends to include them in the reference description, though they are not used in the analytical system.

As to Ukrainian and Russian publications referred in the articles, we recommend the following variant of the structure of bibliographic References:

- authors' surname and name (transliterated),
- title of publication in the transliterated form and translation into English in the brackets [],
- reference in the transliterated form and its translation into English in the brackets [],
- output data with English specifications, or only digital data (depending on the used standard).

References for Scopus and other international databases DB are provided in separate blocks, with complete rehearsal of references in Ukrainian, irrespective of presence of foreign publications there. If some references to foreign publications are presented in the References, they are duplicated in the transliterated list.

References to journal's articles:

It is not recommended to provide references in the next way (the title is transliterated without translation):

Zagurenko A.G., Korotovskikh V.A., Kolesnikov A.A., Timonov A.V., Kardymon D.V. Tekhniko-ekonomichna optimizatsiya dizainu gidrorazryvu plasta. *Neftyanoe khozyaistvo – Oil Industry*, 2008, no.11, pp. 54-57.

There are free Internet programs for composing the bibliography. A search of «create citation» in Google will provide you with several free programs, making automatic references in accordance with proposed standards. Moreover, bibliography references could be provided for different types of publications (book, journal article, Internet resource, etc.). Below, you can find links to such web-sites: <http://www.easybib.com/>; <http://www.bibme.org/>; <http://www.sourceaid.com/>

Technology of making references based on the system of automatic transliteration and translation

Web-site <http://litopys.org.ua> provides access to a free program of **English transliteration of the Ukrainian texts**. Web-site <http://www.translit.ru> provides access to transliteration of the **Russian texts**.

The programs are very simple and can be easily used as for ready references, as for transliteration of different parts of descriptions.

Below you can find approximate short scheme of the process of references' transformation:

1. Enter web-site <http://litopys.org.ua/links/intrans.htm>
2. Fill the whole text of the Ukrainian bibliography in a special field and press button «recode».

Example of automatic transliteration done at the web-site:

Input text:

Загробська А.Ф. Міграція, відтворення і рівень освіти населення. – К.: Наук. думка, 1983. – 182 с.

Transliterated text:

Zahrobs'ka A.F. Migrantsiia, vidtvorennia i riven' osvity naseleennia. – K.: Nauk. Dumka, 1983. – 182 s.

* transliteration is the conversion of a text from one script to another (conversion of letters of some writing system into another one).

4. Copy the transliterated text into the bibliographical References.

5. Translate the whole description of a reference, except authors (title of a book, article, legislation provisions, etc), into English and paste it to the References (next to the transliterated title).

6. Combine the transliterated and translated references in accordance with the guidelines. A place of publishing should be mentioned (Kyiv), while abbreviations of pages should be provided in English (instead of 182 s., – 182 p.). The title of reference should be written in Italics. In the end of sentence, words [in Ukrainian] should be added:

Zahrobskaia A.F. *Myhratsyia, vosproyzvodstvo u uroven' obrazovanyia naselenyia [Migration, reproduction and level of education of population]*. Kyiv: Nauk. Dumka, 1983, 182 p. [in Ukrainian]

There is also another option:

the following reference: Кочукова Е.В. Павлова О.В. Рафтопуло Ю.Б. Система экспертных оценок в информационном обеспечении учёных // Информационное обеспечение науки. Новые технологии: Сб. науч. тр. / Калёнов Н.Е. (ред.). – М.: Научный Мир, 2009. – 342 с. – С.190–199.

is put into the program with mentioning [in Russian] in the end of sentence:

Kochukova E.V. Pavlova O.V. Raftopulo Iu.B. Sistema ekspertnykh otsenok v informatsionnom obespechenii uchenykh // Informatsionnoe obespechenie nauki. Novye tekhnologii: Sb. nauch. tr. – М.: Nauchnyi Mir, 2009. – S.190-199 [in Russian].

It is forbidden to use Ukrainian State Standards ДСТУ 7.1:2006 «Система стандартів з інформації, бібліотечної та видавничої справи. Бібліографічний запис. Бібліографічний опис. Загальні вимоги та правила складання» in the **References**. There are no international standards using punctuation common for the Ukrainian Standards («//» и «-») in the references. A title of reference and output data are usually written in another script as compared with author's name and publications' title (in italics – most often), or separated by a dot or coma.

Transform the transliterated reference:

1. Remove special punctuation, additional blanks, dashes (instead a hyphen should be placed), quotation marks, № (signs), («//», «-» «;», „ / “, “ “) and others.

2. English translation of the titles of article and its source are written in brackets after transliteration.

3. A full name of place of publishing and numbers of pages are written in English (a publisher should be transliterated). In the end of sentence should be mentioned [in Russian].

The final result:

Kochukova E.V. Pavlova O.V. Raftopulo Iu.B. Sistema ekspertnykh otsenok v informatsionnom obespechenii uchenykh [The peer review system in the information providing of scientists] Informatsionnoe obespechenie nauki. Novye tekhnologii: Sb. nauch. tr. [Information Support of Science. New Technologies: Collected papers]. Moscow: Nauchnyi Mir, 2009, pp.190-199 [in Russian].
