

Журнал математической физики,
анализа, геометрии

Том 13, № 1, 2017

Январь, 2017

Содержание

<i>R. Hatamleh and V.A. Zolotarev</i> On the Abstract Inverse Scattering Problem for Trace Class Perturbations	3
<i>V.I. Korobov and T.V. Revina</i> On Robust Feedback for Systems with Multidimensional Control	35
<i>S.O. Serbenyuk</i> Continuous Functions with Complicated Local Structure Defined in Terms of Alternating Cantor Series Representation of Numbers	57
<i>D. Tieplova</i> Distribution of Eigenvalues of Sample Covariance Matrices with Tensor Product Samples	82
