

***V SCIENTIFIC CONFERENCE "MONITORING AND ANALYSIS OF WATER"***

Fifth Scientific Conference "Monitoring and water analysis. Chromatographic methods for the determination of ionic compounds" will be organised in Hotel Rubbens&Monet, Toruńska 10a St., 87-148 in Łysomice near Toruń at April 2-4, 2017.

Conference topics will cover a wide range of problems related to the theory and practice from the field of ion chromatography and electromigration techniques. The main aim of this event is to meet analysts' from universities, research institutes, sanitary-epidemiological stations, inspectorates of environmental protection and industrial laboratories associated with the production of water, power, pharmaceuticals, chemical industry and others.

The conference is dedicated to current and potential users of ion chromatographs and electromigration techniques. The conference program will be reach and very attractive which enable the participants to extend and share the knowledge and experience among the people connected with the monitoring and water analysis issues.
